F#8910-18 (W-7)

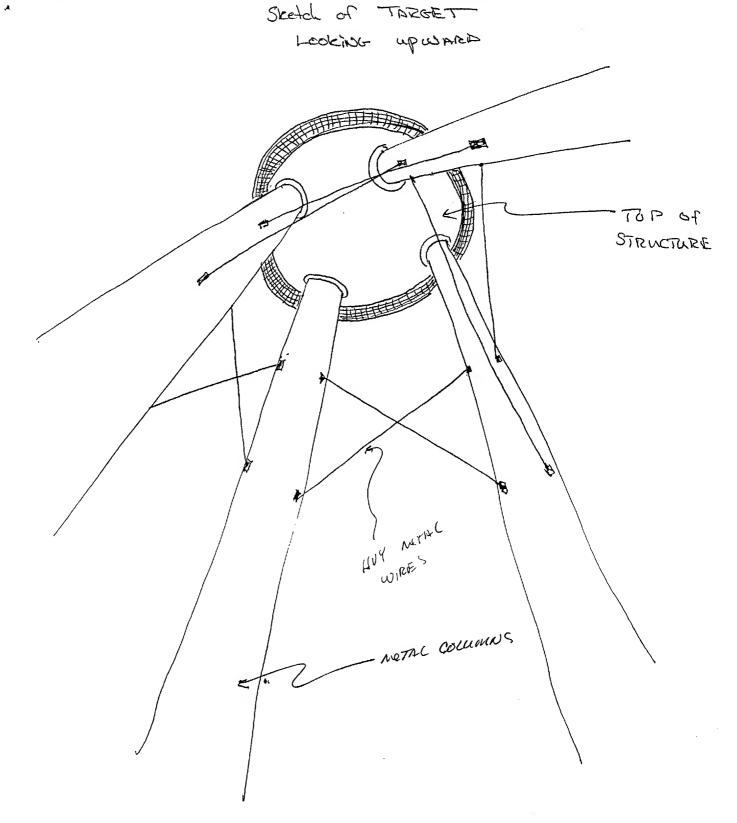

SUMMARY OF INFORMATION

The target is a tall structure. Inere are columns reaching upward with some sort of enlargement at the top. The target is constructed mainly of steel and there are reinforcement wires between the main columns. I think that the color was light green with concrete at the base covering the area like a patio or driveway.

The top looks like a rounded structure and i sensed a presence of people there. It was summy and people were walking around the base of the structure, the most prevalent perception was one or hermit yet very try and caim.

San design of \$20 Collection of \$20.20
